EXPERIENCE

Project Coordinator at Womar (Netherlands) BV 2015 - 2020

During his time at Womar (Netherlands) BV, Vladimir focused on new project development. As a Project Coordinator, he played a pivotal role in coordinating and managing projects from their initial stages to completion.

Shipbuilding Department Director at Iceberg/ Douglas Industrial Technologies 2002-2015

Vladimir held the position of Shipbuilding Department Director at Iceberg / Douglas Industrial Technologies. In this role, he oversaw major projects, including the construction of Asphalt Tankers, Ro-Ro Tankers, a Passenger Ship, a Ferry Boat, Product Tankers, and a Semi-Submersible Rig. He served as a Project Manager, Assistant, and Supervisor, responsible for ship production, outfitting, ship design, classification, workshop documentation, and procurement management. Notably, one of the projects he worked on received the prestigious "Significant Ship of the Year 2005" award from The Royal Institution of Naval Architects (UK). Additionally, Vladimir provided consultancy services during the privatisation process of state-owned shipyards in Croatia.

Controller at IVC LLC 2000-2002

At IVC LLC, Vladimir worked as a Controller, specializing in the development of Ship's stability software. In this role, he ensured accurate financial management and contributed to the software's successful implementation.

Sailing Instructor at Adriatic Nautical Academy 1993-1998

During his seasonal employment as a Sailing Instructor at the Adriatic Nautical Academy, Vladimir utilized his expertise in competitive match race sailing. He provided professional guidance and training to aspiring sailors.

Junior Officer and Cadet at Tankerska plovidba dd 1987-1989

In his early career, Vladimir served as a Junior Officer and Cadet, gaining valuable hands-on experience on bulk carriers and tankers. His dedication and commitment to his work helped shape his solid foundation in the maritime industry.
